

User Manual

3-Outlet Surge Protector +USB Charger

FEATURES

- ① **LED Indicator:** When the red "protected" LED is illuminated the surge protector is working properly. If the red LED does not light please check that the wall outlet is properly grounded (you may try another wall outlet). If the red LED does not illuminate please contact customer care or replace the unit.
- ② **USB Charger:** You can charge your USB devices from the 2 charging ports. Each port also protects your devices from electrical surge.
- ③ **AC Outlets:** 3 outlet provide up 1050 joules of surge protection. Also works with larger AC adapters.

Safely Power Equipment and Charge Mobile Devices

## Specifications

**3-Line Protection:** Hot, Neutral and Ground

**Response Time:** < 1 Nanosecond

**Continuous Duty Electrical Rating:** 125V/15A/1875W, 60hz

**Maximum Spike Current:** 19,500 Amps

**Maximum Surge Voltage:** 6000V

**EMI/RFI Noise Reduction:** Up to 20dB from 150Khz to 30Mhz

**Powered USB Output:** DC 5V, 2.0A (each)

**For Indoor Use Only**

**Maximum Energy Dissipation:** 1050 Joules

## FCC Part 15

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions.

1. This device may not cause harmful interference and
2. This device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This Class B digital apparatus complies with Canadian ICES-003.

Note: These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help. This device is manufactured using environmentally-safe procedures in compliance with the Restriction on Hazardous Substances (ROHS) directive.

Caution: Risk of electric shock. Use only in dry locations and only indoors.

Do not plug into another relocatable power tap.

Do not plug into another power strip or surge protector.

Do not use with any aquarium equipment.

Do not use if properly grounded outlets are not available.

Do not install this device if there is not at least 30 feet(10 meters) or more of wiring between the electrical outlet and electrical service panel.

## How to Obtain Warranty Service

All Tech Universe products are backed by a **One Year Limited Warranty**. During the warranty period, if your item becomes defective or is no longer working due to materials or workmanship, we will repair or replace your product at no charge\*, as long as you provide an original purchase receipt indicating the item description and date of purchase.
